

ZINZI MAY

Cape Town, Western Cape | zinzimay18@gmail.com

GitHub: github.com/zinzi-hub | Portfolio: zinzi-hub.github.io/Zinzi-may

PROFESSIONAL SUMMARY

Digital Associate at Capaciti with a Diploma in ICT in Support Services and bootcamp training in AI and data science. Chose software development as my specialisation track and have built web applications with Next.js, React, TypeScript, Tailwind CSS and Supabase, including AI-powered features. Combine hands-on technical skills with strong communication, gained supporting teachers, pupils and customers. Seeking an entry-level software development role.

PROJECTS (CAPACITI BOOTCAMP)

CareerBuddySA

Group project | Backend developer

AI-powered career mentor that helps South African Grade 9 to 12 pupils understand their strengths, explore careers and make subject choices. Built the backend logic. Technologies: AI, Lovable.

AI Budget Planner

Group project | Researcher

Full-stack budgeting app for young adults with expense tracking, AI spending analysis, an AI financial-advisor chat, savings goals and PDF reports. Technologies: Next.js 14, React, TypeScript, Tailwind CSS, Supabase, Groq API, Recharts, jsPDF, Vercel.

WC Hospital Feedback

Group project | UI designer

Security-hardened web app for the Western Cape Department of Health to collect, analyse and report on patient feedback from public hospitals. Designed the user interface. Technologies: Next.js 14, TypeScript, Supabase (PostgreSQL and Auth), Groq AI.

Work Flow Whisperer

Solo project | AI Google Essentials programme

Tool that automates repetitive tasks and improves professional workflows, built end to end with AI-assisted development and prompt engineering. Technologies: Tailwind CSS, Lovable AI, GitHub.

PROFESSIONAL EXPERIENCE

Digital Associate

Capaciti, Cape Town | 2026 to present

- Completed an AI and data science bootcamp, then specialised in software development
- Delivered four portfolio projects in team and solo settings using modern web technologies and AI tools

Customer Service

McDonald's | May 2026 to July 2026

- Served customers in a fast-paced environment, handling orders and queries accurately and politely

Education Assistant

Mvumelwano Primary School | June 2025 to November 2025

- Gave administrative support to 15+ teaching staff, managing schedules, classroom resources and filing systems
- Maintained a student database in Microsoft Excel covering 500+ records, keeping data accurate and confidential
- Provided first-line technical support for educational software, computers, printers and digital learning platforms
- Created reports, presentations and communications with Microsoft Office for management and parent meetings

EDUCATION

Diploma in ICT in Support Services

Walter Sisulu University | Graduated 2025

Coursework: Network Administration, Database Management, Systems Support, Help Desk Operations, Software Development

National Senior Certificate (Matric)

A.M. Zantsi Senior Secondary School | 2018

TECHNICAL SKILLS

Languages and web: HTML, CSS, JavaScript, TypeScript, Python (foundations)

Frameworks and tools: Next.js, React, Tailwind CSS, Supabase, Git and GitHub, Vercel, GitHub Pages

AI and data: Prompt engineering, Groq API, Lovable, data science foundations, machine learning concepts

Office and support: Microsoft Office (Word, Excel, PowerPoint, Access), troubleshooting, help desk support, Windows, basic Linux

CERTIFICATES

Coursera: AI For Everyone; Introduction to Artificial Intelligence; Google AI Specialization; Supervised Machine Learning; Unsupervised Learning, Recommenders and Reinforcement Learning; Introduction to Generative AI; Generative AI: Prompt Engineering Basics; Generative AI with LLMs; Python for Data Science, AI and Development; Introduction to HTML, CSS and JavaScript; Introduction to Software Engineering

NEMISA: Data Science Tools; Data Science Foundation

ADDITIONAL INFORMATION

Languages: English (fluent), isiXhosa (native) | **Nationality:** South African
